

# SLIPEBÅND 10X 330 #100 CS409 Y KLINGSPOR

Produktnummer: 224308

Klingspor abrasive belt CS 409 Y – the perfect wide belt for processing stainless steel. The abrasive belt CS 409 Y by Klingspor is distinguished by its aggressive abrasive performance, which is the product of its self-sharpening grain and an additional multibond. This type of structure keeps annealing colours from forming on workpieces made of high-alloy steel, allowing for a result of impeccable quality. The multibond also reduces clogging when the belt is used for grinding soft, smearing materials. This wide belt is therefore ideal for grinding stainless steel, aluminium and aluminium alloys.
